

PROFESSIONAL SUMMARY

Results-driven Salesforce Technical Engineer with 5.5+ years of experience designing, developing, and delivering enterprise Salesforce solutions across Manufacturing, Real Estate, and Financial Services domains. Specialized in Apex development, Lightning Web Components (LWC), Experience Cloud, Data Cloud, and complex system integrations. Proven track record of delivering 10+ Salesforce implementations with 95%+ client satisfaction while managing multi-org environments serving 150+ users across 3 Salesforce instances.

Experienced in building customer-facing portals, automating business processes, integrating third-party systems, and delivering scalable CRM solutions using Sales Cloud, Service Cloud, Experience Cloud, and Data Cloud.

Key Achievement: Engineered a Data Cloud Customer 360 platform for 200+ properties, driving a 30% increase in conversion rates and a 12% reduction in customer churn.

CERTIFICATIONS

Salesforce Platform Developer I — Salesforce

Validates expertise in designing, building, and deploying custom applications on the Salesforce platform using Apex and Lightning Web Components.

Salesforce Administrator — Salesforce

Demonstrates proficiency in managing and configuring Salesforce orgs, automating business processes, and supporting users.

Salesforce AI Associate — Salesforce

Certifies foundational knowledge of AI concepts and how artificial intelligence is applied within the Salesforce ecosystem.

Salesforce Associate — Salesforce

Confirms core understanding of the Salesforce platform, its features, and how it supports business processes and CRM solutions.

PROFESSIONAL EXPERIENCE

Hy-tech Professionals India Private Limited

Salesforce Technical Engineer (Sales Cloud, Service Cloud, Experience Cloud) | November 2020 – Present

Leading Salesforce consulting firm specializing in enterprise CRM solutions and digital transformation.

- Spearheaded 10+ end-to-end Salesforce implementations achieving 95% client satisfaction.
- Engineered 15+ Apex Triggers, 10+ Batch Apex classes, and custom Schedulable jobs, improving data processing efficiency by 50% and reducing manual operational effort.
- Administered enterprise multi-org architecture supporting 150+ users across 3 production orgs while maintaining 99.8% uptime.
- Architected scalable Lightning Web Component solutions processing 15K+ records daily with automated exception handling and governor limit optimization.

KEY PROJECTS

Equity Lifestyle Properties | Data Cloud Customer 360

- Architected a comprehensive Salesforce Data Cloud solution for a portfolio of 200+ properties supporting 80+ sales users with a unified database of 5K+ prospects.
- Implemented advanced customer segmentation, analytics, and personalized customer journeys resulting in a 25% increase in lead engagement.
- Contributed to a 12% reduction in churn and a 30% improvement in conversion rates through data-driven customer insights.

TrxNow | Enterprise Integration Platform

- Orchestrated bidirectional real-time integrations across 3 core business systems using Jitterbit middleware, processing 5K+ transactions daily with a 99% success rate.
- Developed 6 Lightning Web Component dashboards with real-time data visualization, improving team productivity by 40%.
- Reduced API response latency by 75% through caching strategies and asynchronous processing techniques.

TechmerPM | Manufacturing Industry | Experience Cloud Digital Portal

- Designed and deployed a scalable Salesforce Experience Cloud portal for a leading materials design and manufacturing organization, serving 1,000+ external users across 250+ active projects.
- Developed and maintained 10+ reusable Lightning Web Components supporting customer and partner collaboration, project visibility, and self-service capabilities.
- Implemented custom authentication, role-based permissions, and dynamic content rendering to provide secure access for external stakeholders.
- Optimized portal performance by 60% through lazy loading and CDN integration, reducing support escalations by 45%.
- Collaborated with business stakeholders to enhance digital engagement processes and improve operational efficiency through Salesforce Experience Cloud solutions.

INDUSTRY EXPERIENCE

- Manufacturing
- Real Estate
- Financial Services / FinTech
